Sales for the drilling activity, excluding Congo and on a like-for-like basis, are up by 138%, from €18.8 million to €44.8 million. The difference with the 2006 consolidated sales comes from the restatement effects, in consolidation, of the Caroil activity (elimination of 2006 intercompany sales). This explains the +191% and +138% numbers.

This press release may contain forward-looking statements with respect to the financial condition, results of operations, business, strategy and plans of Maurel & Prom. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that will or may occur in the future. These forward-looking statements are based on assumptions which we believe are reasonable but that could ultimately prove inaccurate and are subject to a number of risk factors, including but not limited to price fluctuations in crude oil; exchange rate fluctuations; uncertainties inherent in estimating quantities of oil reserves; actual future production rates and associated costs; operational problems; political stability; changes in laws and governmental regulations; wars and acts of terrorism or sabotage.
